8 live sessions

🕒 4pm – 5pm

👥 Target group:
IT Administrators,
IT Engineers

💶 Pilot price
750.00€ p.P

Introduction to the Administration of Azure Cloud

Next start date

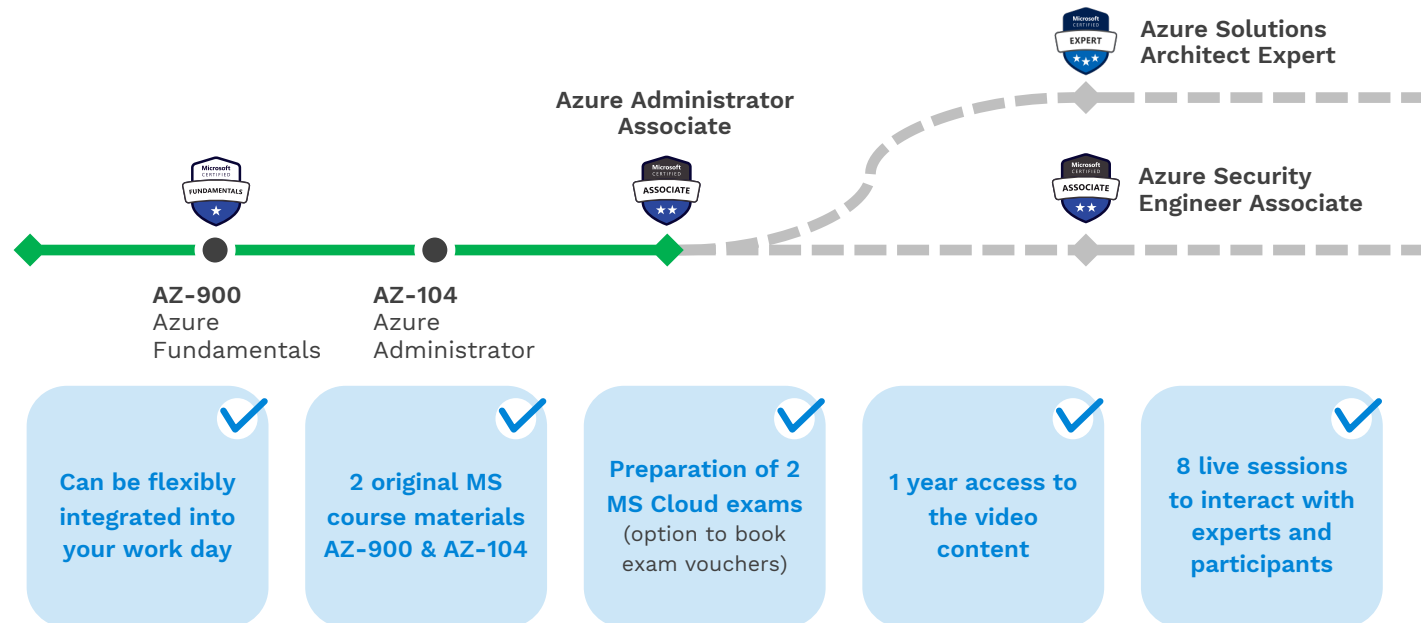

26.10.2021

Become an Azure Administrator Associate in just 4 weeks

This course program is aimed at IT experts who will administer the services of the Azure cloud environment. In addition to the basics, participants learn how to manage Azure subscriptions, secure identities, administer the infrastructure, configure virtual networking, connect Azure and on-premises sites, manage network traffic, implement storage solutions, create and scale virtual machines, implement web applications and containers, back-up and share data, and monitor their solution.

**Integrated into
your work day**

For participants who will convert future business requirements into secure, scalable and reliable solutions, we recommend visiting our Azure Solutions Architect Expert program. The Security Engineer Program is then aimed at participants who want to be able to implement and carry out security-related tasks.
